### Black Death The Pocket Essentials

The Black Death is the name most commonly given to the pandemic of bubonic plague that ravaged the medieval world in the late 1340s. From Central Asia, the plague swept through Europe, leaving millions of dead in its wake. Between a quarter and a third of Europe's population died, and in England the population fell from nearly six million to ...

The second plague pandemic was a major series of epidemics of plague that started with the Black Death, which reached Europe in 1348 and killed up to a half of the population of Eurasia in the next four years. Although the plague died out in most places, it became endemic and recurred regularly. A series of major epidemics occurred in the late 17th century, and the disease recurred in some ...
