describes the body casting process in broad lines. There are two major steps in the process.

Body Casting Tutorial - How to make a life casting....

Body casting is a low cost and fairly quick way to make a precise copy of a person's body. The method I describe in this article is one of many ways to achieve a high quality body cast. Every casting situation presents new and interesting challenges. I have cast many different types of people, art objects, and even postmortem casts.
