Yesterday in my bed-chamber, Nurse Pin-head opened the glass-doors to my private balcony to release the fetid cloud of odors, miasmas, and sour regrets which had built up over the past several weeks. This classic, once hard-to-find travelogue recalls one of the very first around-the-world bicycle treks. Filled with rarely matched feats of endurance and determination, *Around the World on a Bicycle* tells of a young cyclist's ever-changing and maturing worldview as he ventures through forty countries on the eve of World War II. It is an exuberant, youthful account, harking back to a time when

the exploits of Richard Byrd, Amelia Earhart, and other adventurers stirred the popular imagination. In 1935 Fred A. Birchmore left the small American town of Athens, Georgia, to continue his college studies in Europe. In his spare time, Birchmore toured the continent on a one-speed bike he called Bucephalus (after the name of Alexander the Great's horse). A born wanderer, Birchmore broadened his travels to include the British Isles and even the Mediterranean. After a lengthy, unplanned detour in Egypt, Birchmore put his studies on hold, pointed Bucephalus eastward, and just kept going. From desert valleys to frozen peaks, from palace promenades to muddy jungle trails, Birchmore saw it all on his eighteen-month, twenty-five-thousand-mile odyssey. Some of the people he encountered had never

seen a bike--or, for that matter, an Anglo-European. As a good travel experience should, Birchmore's trip changed his outlook on strangers. Always daring, outgoing, and energetic, he now saw an innate goodness in people. In between bone-breaking spills, wild animal attacks, and privation of all kinds, Birchmore learned that he had little to fear from human encounters. That he traveled through a world on the brink of global war makes this lesson even more remarkable--and timeless.

An eye-opening and fascinating slow travel journey from an acclaimed writer who circled the globe without ever leaving the ground. In this age of globalism and high-speed travel, Seth Stevenson, the witty, thoughtful Slate columnist, takes us back to a time

when travel meant putting one foot in front of the other, racing to make connections between trains and buses in remote transit stations, and wading through the chaos that most long-haul travelers float 35,000 feet above. Stevenson winds his way around the world by biking, walking, hiking, riding in rickshaws, freight ships, cruise ships, ancient ferries, buses, and the Trans-Siberian Railway-but never gets on an airplane. He finds that from the ground, one sees the world anew-with a deeper understanding of time, distance, and the vastness of the earth. In this sensational travelogue, each step of the journey is an adventure, full of unexpected revelations in every new port, at every bend in the railroad tracks, and around every street corner.

In this multicultural travelogue through each of the 24 time zones, young readers are invited to travel the world and experience all the people, places, and things that exist on our planet right now. In every minute of every hour of every day, something wonderful is happening around our world. In Santa Fe, New Mexico, an artist sits behind his easel working on a painting. While at the same time in Greenland, an Inuit boy begins training his first pack of sled dogs. While in Madagascar, a playful lemur is trying to steal treats from a family's picnic, just as a baby humpback whale is born deep in the Pacific Ocean. A perfect read-aloud to help introduce geography and time-telling as well as a celebration of the richness and diversity of life on our planet.

Around the World in Seventy-Two Days (1890) is a travel narrative by American investigative journalist Nellie Bly. Proposed as a recreation of the journey undertaken by Phileas Fogg in Jules Verne ’ s *Around the World in Eighty Days* (1873), Bly ’ s journey was covered in Joseph Pulitzer ’ s popular newspaper the *New York World*, inspiring countless others to attempt to surpass her record. At the time, readers at home were encouraged to estimate the hour and day of Bly ’ s arrival, and a popular board game was released in commemoration of her undertaking.

Embarking from Hoboken, noted investigative journalist Nellie Bly began a voyage that would take her around the globe. Bringing only a change of clothes, money, and a small travel bag, Bly travelled by steamship and train through England, France—where she met Jules Verne—Italy, the Suez Canal, Ceylon, Singapore, Hong Kong, and Japan. Sending progress reports via telegraph, she made small reports back home while recording her experiences for publication upon her return. Despite several setbacks due to travel delays in Asia, Bly managed to beat her estimated arrival time by several days despite making unplanned detours, such as visiting a Chinese leper colony, along the way. Unbeknownst to Bly, her trip had inspired Cosmopolitan 's Elizabeth

Brisland to make a similar circumnavigation beginning on the exact day, launching a series of copycat adventures by ambitious voyagers over the next few decades. Despite being surrounded by this air of popularity and competition, however, Bly took care to make her journey worthwhile, showcasing her skill as a reporter and true pioneer of investigative journalism. With a beautifully designed cover and professionally typeset manuscript, this edition of Nellie Bly ' s Around the World in Seventy-Two Days is a classic work of American travel literature reimagined for modern readers.
