One of Fuller's most popular works, Operating Manual for Spaceship Earth, is a brilliant synthesis of his world view. In this very accessible volume, Fuller investigates the great challenges facing humanity. How will humanity survive? How does automation influence individualization? How can we utilize our resources more effectively to realize our potential to end poverty in this generation? He questions the concept of specialization, calls for a design revolution of innovation, and offers advice on how to guide [spaceship earth] toward a sustainable future. Description by Lars Muller Publishers, courtesy of The Estate of Buckminster Fuller

Turning a bowl may seem daunting, but woodworkers can create beautiful bowls with the expert advice and instructions in this book. Richard Raffan walks them through the process -- from wood selection and design advice to surface embellishment and finishing techniques. With step-by-step photos and detailed drawings.
