The purpose of these guidelines is to define the indications for starting and stopping CRRT in (surgical) ICU patients and to describe nursing responsibilities for initial set-up and maintenance of the therapy and related

ANUAL POLICY Guidelines for initiation. EFFECTIVE DATE ...
Continuous renal replacement therapy (CRRT) originally was applied with technology adapted from maintenance hemodialysis. Over the past four decades, CRRT machines have evolved into devices specifically designed for critically ill patients.

Continuous Renal Replacement Therapy - an overview ...
In this discussion, CVVHDF (continuous venovenous haemodiafiltration) is the representative modality of CRRT. The "continuouslyness" of CRRT makes it a more physiologically normal method: like the normal kidney, the machine dialyses you over a 24 hr period. However, there are distinct differences between the polymer membrane and the glomerulus.

Continuous renal replacement therapy (CRRT) | Deranged ...
To ensure effective CRRT, nurses who care for patients receiving this therapy should attend classes on this specialized therapy and demonstrate clinical competency on a regular basis. Classes typically include education on how to use the CRRT machine, identify machine alarms, perform troubleshooting, and calculate CRRT fluid balance.

Continuous renal replacement therapy: Dialysis for ...
ontinuous renal replacement therapy (CRRT) is proven effective for critically ill patients with (acute) renal failure (1, 2). In patients with heparin-induced thrombocytopenia type II (HIT-II) requiring CRRT effective anti-coagulation, it is necessary to avoid thrombembolic complications (3, 4).
