Your "I have to." It's that thing. You know, "the thing" you day dream about and periodically pantomime when you think no one is looking. It's the thought in your mind when you wake up and the thought you can't seem to shake off before you drift to sleep. It's a beautiful mixture of passion, obsession, talent, and gift. It's that thing that lights your soul on fire. That thing you can't seem to stop chasing. It's that thing you can't say no to, even if you wanted to, even though you've tried. It's the one thing that you have been given that the world desperately needs. It's your "I have to."We all have them.. They choose us when we least expect it and often when we're the least prepared. So how do we identify our "I have to's"? How do we say yes to them when we'd rather run away? What do we do when our "I have to's" cost us something? In a six week study through the Bible, I Have to, Chasing What Sets Your Soul on Fire helps readers uncover their calling, find their purpose, and tackle the obstacles that stand in the way. For "It's in Christ that we find out who we are and what we are living for."(Ephesians 1:11 MSG).

"If You Don't Know Me By Now," "The Love I Lost," "The Soul Train Theme," "Then Came You," "Ain't No Stoppin' Us Now"--the distinctive music that became known as Philly Soul dominated the pop music charts in the 1970s. In A House on Fire, John A. Jackson takes us inside the musical empire created by Kenny Gamble, Leon Huff, and Thom Bell, the three men who put Philadelphia Soul on the map. Here is the eye-opening story of three of the most influential and successful music producers of the seventies. Jackson shows how Gamble, Huff, and Bell developed a black recording empire second only to Berry Gordy's Motown, pumping out a string of chart-toppers from Harold Melvin & the Blue Notes, the Spinners, the O'Jays, the Stylistics, and many others. The author underscores the endemic racism of the music business at that time, revealing how the three men were blocked from the major record companies and outlets in Philadelphia because they were black, forcing them to create their own label, sign their own artists, and create their own sound. The sound they created—a sophisticated and glossy form of rhythm and blues, characterized by crisp, string-laden orchestration and a hard-driving rhythm section—was a glorious success, producing at least twenty-eight gold or platinum albums and thirty-one gold or platinum singles. But after their meteoric rise and years of unstoppable success, their production company finally failed, brought down by payola, competition, a tough economy, and changing popular tastes. Funky, groovy, soulful--Philly Soul was the classic seventies sound. A House on Fire tells the inside story of this remarkable musical phenomenon.
