A social history of British women's brave yet forgotten service during WWI from a historian of female wartime experiences—includes photos. At the outbreak of World War I, women looking to contribute to the Allied effort were told by the war office to "go home and sit still." Thankfully, hundreds of thousands of women from all corners of society ignored that advice and lent their collective strength to the cause. In *We Also Served*, Vivien Newman digs beneath the myths surrounding women's war efforts to reveal stories of determination and heroism. Becoming nurses, munitions workers, members of the Land Army, ambulance drivers, and surgeons, women stepped readily into a world normally occupied by men. Some served with the Armed Forces, others funded and managed their own hospitals within sight and sound of the guns. At least one British woman bore arms, and over a thousand women lost their lives as a direct result of their involvement with the war. This profoundly important history by an expert in female wartime experiences lets these all but forgotten voices finally be heard. "A short book rich in facts and personal testimonies." —Historical Novel Society

Since the birth of classical music, women who dared compose have faced a bitter struggle to be heard. In spite of this, female composers continued to create, inspire and challenge. Yet even today so much of their work languishes unheard. Anna Beer reveals the highs and lows experienced by eight composers across the centuries, from Renaissance Florence to twentieth-century London, restoring to their rightful place exceptional women whom history has forgotten.

This collection uncovers the wives, daughters, mothers, companions and female assistants who laboured in the shadows of famous men. Revealing the reality of uncredited female contributions throughout history, this book highlights the work of neglected and forgotten women associated with celebrated male writers, scholars, activists and politicians. As the #ThanksForTyping movement has shown, anonymous women working to support the work of their male relations and colleagues has been, and often still is, a universal phenomenon. These essays show just how long intelligent and determined women have been sidelined, ignored or forgotten throughout history. From a well-connected Roman matrician to the mother of the poet Philip Larkin, these women have their voices returned to them in twenty engaging chapters. Spanning ancient times to the modern day, they return agency to women who occupied crucial roles behind the scenes, but were always restricted to the supporting role they were obliged to play. The universal importance of these women take on new meaning in our modern era where women's voices are becoming ever-louder and increasingly recognised - including through such a movement as #ThanksForTyping.

It is 1936 and Spain is on the brink of civil war. Across Europe, young men are enlisting in the International Brigade to free their Spanish brethren from the grip of fascism, leaving sisters and lovers at home. But not all women are content to be left behind. In Britain, Charlotte McBain and Libby Forbes, friends from opposite sides of the class divide, are determined to do what they can: in Spain, Rosita Garcia Diaz, fiercely loyal to her family and country, cannot stand by and watch. Three brave women, inspired by patriotism, idealism, love and even revenge, dare to go into battle against tradition and oppression. Tying them all together is Jo, Libby's granddaughter. Five decades later she travels to Spain hoping to make sense of a troubling letter hidden among her grandmother's possessions. What she learns will change all of their lives forever. Deceit, heartbreak and a longstanding fear of reprisals must all be overcome if the deeds of the forgotten women are to be properly honoured."
