~~Kruszelnicki (Polish pronunciation: [kru I itsk i]) was born in Helsingborg, Sweden, to Polish parents, Rina and Ludwick. Kruszelnicki's background was hidden from him for a long time, with his mother having told him that she was Swedish and a Lutheran but she was, in fact, Polish and Jewish. Both his parents were Holocaust survivors.~~

Fans of Adam Spencer will love Game of Knowns.

Get your pulse racing with Australia's most popular scientist, Dr Karl Kruszelnicki. Discover why people tell lies, why some planets are hotter than stars and how humans are terraforming the Earth. Is cockroach milk really the next Superfood? Why are birds so smart? Why do trees need each other to grow and how do they communicate? Why did a group of scientists voluntarily starve to death while surrounded by tonnes of food? How long does a decapitated head stay "alive"? What human artefacts can be seen with the naked eye from the International Space Station? Who is Bertha Benz and how did her first car trip revolutionise how we use petrol today? Finally, monitor your breathing and learn why whales are so big, why oral histories are surprisingly accurate and try the five tried-and-tested steps to becoming a wellness guru.

THE TIME(LESS) LORD OF SCIENCE, DR KARL KRUSZELNICKI, IS BACK. No need for the Tardis when you can mind travel through "wibbly-wobbly" theories of Time Travel, how alcohol makes you speak louder, how to tell what part of a movie the audience is watching without looking, and why Americans are no longer the tallest people on Earth. What will the discovery of Gravitational Waves do for you? Why do you sleep badly in an unfamiliar bed? Why should you exercise before breakfast (not after) to stop weight piling on? Is Bitcoin the currency of the future? What connects God, caffeine and chocolate? How does streaming a video for an hour use more electricity than running a fridge for a week? What are the secrets of immortal jellyfish and vampires? Are smoothies good for you? And just what is a "vomitorium"? The Doctor lays it all down - without resorting to a Sonic Screwdriver. This is a specially formatted fixed layout ebook that retains the look and feel of the print book.

In the ruthless pursuit of scientific fact, there is no candidate more formidable than Dr Karl Kruszelnicki, Master Geek and National Living Treasure. "There's no topic on which Dr Karl does not have an interestingly expressed opinion" The Weekly Review "Guaranteed good read" The Age In House of Karls, Dr Karl addresses a range of issues and questions: how Politics and Greed are dirtying the purity of Science and why the world's most expensive book costs more than \$23 million dollars, but only \$4 to post. How real is the Five Second Rule with food? Why does a frog in milk stop it from souring? Why did the Nazis steal the only Space Buddha? Gold may bring power, but how did it get from an exploding star to a gum tree? Why are children smarter than their parents? Why is bank robbery a terrible economic decision, and what are the surprising origins of the 'selfie'? Did you know that the Government knows of a cancer cure and it has 75,000 pieces of Big Data on you ... Vote #1 @doctorkarl. Fans of Adam Spencer will love House of Karls. This is a specially formatted fixed layout ebook that

retains the look and feel of the print book.

Why do stars seem to twinkle? Where do all the teaspoons go? Why is the Giant Panda so paradoxical? Why does dark matter matter? The world around (and inside) us is completely astonishing. Dr Karl Kruszelnicki, the most esteemed science communicator in Australia, has chosen 101 fascinating facts from his bestselling books to delight and intrigue you. Taking a microscope to everyday science he gives us insights into the surprising origins of the "selfie", the rise and rise of 3D printing, how a nit is hatched by massive amounts of farting, why humans are basically fat doughnuts, and how you can stop milk from spoiling by dropping a Russian brown frog into it. These are things you need to know. These are things you don't even know you need to know. A riveting ride through the extraordinary world of science.

Australia's favourite science guru explains the facts about climate change -- and how we can fix it How do Greenhouse Gas molecules shimmy and shake to trap 400,000 Hiroshima atom bombs' worth of the Sun's heat each day? Who did the early research into Climate Change and then spent billions trying to cover it up? What's the Hockey Stick Graph and why is it so important? How did Climate Change tip the Earth off its axis? Why was Sydney the hottest place on Earth on 4 January 2020? How can we move to zero and even negative emissions? How can help help? When it comes to long-haul transport, why is hydrogen the way to go? And much more! Now, in this never dull, easy-to-understand guide Dr Karl explains the science of climate change and how we can fix it. (We can!)

Welcome to the wonderful world of Doctor Karl: where oddities are embraced, facts reign supreme, curiosity is king and brightly coloured shirts are compulsory! In his brand new book, our much beloved and National Living Treasure Doctor Karl Kruszelnicki applies his trademark straight-talkin'-no-high-falutin' scientific sense to a brand new range of Big Questions that you never knew you even wanted to ask, but now desperately need to know the answers to. Have you ever walked into a room and immediately forgotten the reason you're there? A solid thought convinced your legs to move, but by the time you reach your destination, you realise the thought has abandoned you en route. No, it's not dementia. It's the doorway. Impress your friends (and potential dates) by being able to answer such questions as:- Why is the sky blue? - Why is it dark at night?- Why does lunacy erupt under a full moon?- What's the truth about spinach and Popeye? In this ever-changing, fast-paced and sometimes crazy world, few things are certain. But what is certain is that Dr Karl is here to help us battle our way through half-baked scientific myths and rumours, so that we may emerge smarter, stronger and viewing the world with more wonder than ever before.

More whacky, fun facts with everyone's favourite scientist Dr Karl has taken on Santa Claus, atom bombs, 'friendly' dolphins and 'killer' whales, meteors, black holes, string theory and camel's humps. In his 27 mega-selling books, he demolishes myths, tells readers how to spot bogus science and advises readers to be wise, sceptical and to always challenge authority. In his 28th book he continues his crusade to keep the world a rational place by answering vital questions like 'Are white cats deaf?' and 'Will lemon juice make you slimmer?'

'Science is the great antidote to the poison of enthusiasm and superstition.' - Adam Smith, the Wealth of Nations, 1776 Columbus never set foot in America. Piranhas are the deadliest fish. A purring cat is a happy cat. Cleopatra was insanely beautiful. All natural products are safe. Oranges are the richest source of vitamin C. You can tell a liar just by looking in their eyes. the Roswell alien autopsy proved that intelligent aliens visited us. And Dr Karl wears a hoodie lab coat to work every day. Some of these are true and some are not. Well, the last one is definitely not. But inside these covers you'll find out whether there's dis information about the other wikkid myths . Dr Karl Kruszelnicki is the Julius Sumner Miller Fellow at the University of Sydney. He appears on triple J and other ABC radio stations, and on BBC radio, and is a regular guest of Kochie and Mel on Channel 7's Sunrise. this is his 24th book, and is based on his popular Good Weekend column, 'Mythconceptions'.
