Dan is playing Minecraft with his friends, like he always does, when a strange figure, white from head-to-toe, approaches him in the game and

drops a book at his feet. Cautiously, Dan reads the book: it's an invitation, to a school. A school for only the very best Minecraft players in the country. It has to be a trick. It's probably just a joke from one of his friends. Dan is thinking just that, when there's a knock at the door. A strange woman, dressed in all white, has arrived at Dan's front door. She introduces herself to his bewildered mom and dad with her angelic voice. Her name is Ms. Fennerby and she's a teacher at Herobrine Middle School, an academy for children gifted in the game of Minecraft. Dan has been selected as one of the builders and designers of his generation. It all seems too good to be true. And maybe it is... Herobrine Middle School is a thrilling middle school adventure filled with real emotions, page-turning excitement and characters that will jump off the page and make you laugh. It is *Spy Kids* and *Harry Potter* and *The Hunger Games*, all set to the backdrop of the mysterious world of Minecraft. Perfect for readers age eight to fourteen with a story that will excite all lovers of Minecraft. Excerpt "DAAANNNNN! It's dinner time!" the voice echoed up the stairs. "I'll be right down!" Dan yelled back. "I've just got to save the world!" Dan's mom, who was making a racket in the kitchen that made Dan think she was throwing every pot on the ground, didn't respond. That was okay. Dan didn't want to have to explain anyways. He was saving the world. Well... a world. The Minecraft world that he and a couple

friends had been working on for over a year. They had magnificent houses and had built huge statues of their avatars in the game. Dan's pride and joy was built on the server too: The Cow Cannon 2000. The Cow Cannon 2000 did... well it did exactly what you would expect it to. It fired cows at blinding speed into the far away expanses of Minecraft. It fired them so far that Dan and his friends had never found any remains of the cows or the mine carts that they were fired in. The best part is that the machine worked automatically. It lured cows to the machine and then fired them off as soon as they got close enough. Dan was incredibly proud of it. A work of art, he told himself. And, really, everything had been perfect in that huge-housed, massive-statued, cow-raining world, until the griefers had shown up. Somehow, a bunch of older kids had found the server and at first it was fine. They built their own stuff. That was fine. But soon they were bored of that and started destroying anything and everything they could find. Dan had urged his friends to just not react. The griefers would get bored, he thought, and leave them alone. But they didn't get bored. So, it was time to take more drastic measures. The griefers' next target was Platinum Plateau where Dan's friends' houses were built, along with the Cow Cannon 2000. Dan wasn't going to let the griefers anywhere near it. He had spent the last week building a series of "secret" entrances to the plateau via mine cart. The idea

was that the griefers would find the "secret" entrances and not be able to resist riding the mine carts into the centre of the plateau to surprise Dan and friends. But little did they know that the mine cart would take them right to the Cow Cannon 2000, and before they knew it, BAM! They'd be taking a free flight, courtesy of Dan airlines. What are you waiting for? Get reading!

"Herobrine is already weirded out by the crazy ghost, goblins and ghouls he sees taking over the human world on Halloween. But now he's terrified to find out that Zombies and Creepers have invaded the human world as well! Will he be able to save the human world from all of the monster Mobs that are taking over the earth?"--Page 4 of cover.
