NEW YORK TIMES BESTSELLER •
This instant classic explores how we can change our lives by changing our habits.
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times
In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that

take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author “Sharp, provocative, and useful.” —Jim Collins

“Few [books] become essential manuals for business and living. *The Power of Habit* is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good.” —Financial Times “A flat-out great read.” —David Allen, bestselling

author of *Getting Things Done: The Art of Stress-Free Productivity* “ You ’ ll never look at yourself, your organization, or your world quite the same way. ” —Daniel H. Pink, bestselling author of *Drive* and *A Whole New Mind*
“ Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change. ” —The New York Times Book Review

“ ONE OF THE BEST BOOKS I'VE READ IN RECENT YEARS. THOUGHT PROVOKING, IMAGINATIVE AND PACKS A HELL OF AN EMOTIONAL PUNCH. ”

was once a holy man, a keeper of ancient archives. It was his duty to interpret archaic texts, sorting useful knowledge from the heretical ideas of the Burning Age—a time of excess and climate disaster. For in Ven's world, such material must be closely guarded so that the ills that led to that cataclysmic era can never be repeated. But when the revolutionary Brotherhood approaches Ven, pressuring him to translate stolen writings that threaten everything he once held dear, his life will be turned upside down. Torn between friendship and faith, Ven must decide how far he's willing to go to save this new world—and how much he is willing to lose. “ A riveting tale of subterfuge and deadly self-indulgence ” (Publishers Weekly, starred review) from award-winning author Claire North, *Notes from the Burning Age* puts dystopian fiction in a whole new light. A Field in Flux chronicles the extraordinary journey of industrial and labor relations expert Robert McKersie. One of the most important industrial relations scholars and leaders of our time, McKersie pioneered the study of labor negotiations, helping to formulate the concepts of distributive and integrative bargaining that have served as analytical tools for understanding the bargaining process more generally. The book provides a window into McKersie's life and work and its impact on the evolution of labor and industrial relations. Spanning six decades, the reader learns about the intersection of labor and the Civil Rights

movement, the watershed moment of the Air Traffic Controller's Strike, his relationship with George Schultz, the shift from labor relations to human resource management, and McKersie's role in the seminal cases (Motorola, GM, Toyota) of the labor movement. *A Field in Flux* serves two important functions: it demonstrates how people have influenced past employment policies and practices when called to action in critical situations, and it seeks to instill confidence in those who will be called on to address the big challenges facing the future of work today and in the years to come. During a time when the basic values of industrial relations are being challenged and violated, McKersie argues that the profession must adapt to the changing world of work and not forget about the value placed on efficiency, equity, and inclusive employment policies and practices.

In the first cookbook by a Black pitmaster, James Beard Award-winning chef Rodney Scott celebrates an incredible culinary legacy through his life story, family traditions, and unmatched dedication to his craft. "BBQ is such an important part of African American history, and no one is better at BBQ than Rodney."--Marcus Samuelsson, chef and restaurateur Rodney Scott was born with barbecue in his blood. He cooked his first whole hog, a specialty of South Carolina barbecue, when he was just eleven years old. At the time, he was cooking at Scott's Bar-B-Q, his family's barbecue spot in Hemingway, South Carolina. Now, four decades later, he owns one of the country's most awarded and talked-about barbecue joints, Rodney Scott's Whole Hog BBQ in Charleston. In

this cookbook, co-written by award-winning writer Lolis Eric Elie, Rodney spills what makes his pit-smoked turkey, barbecued spare ribs, smoked chicken wings, hush puppies, Ella's Banana Puddin', and award-winning whole hog so special. Moreover, his recipes make it possible to achieve these special flavors yourself, whether you're a barbecue pro or a novice. From the ins and outs of building your own pit to poignant essays on South Carolinian foodways and traditions, this stunningly photographed cookbook is the ultimate barbecue reference. It is also a powerful work of storytelling. In this modern American success story, Rodney details how he made his way from the small town where he worked for his father in the tobacco fields and in the smokehouse, to the sacrifices he made to grow his family's business, and the tough decisions he made to venture out on his

own in Charleston. Rodney Scott's World of BBQ is an uplifting story that speaks to how hope, hard work, and a whole lot of optimism built a rich celebration of his heritage--and of unforgettable barbecue.

Chilling Adventures of Sabrina meets The L Word in this fresh, sizzling rom-com by Lana Harper. Emmy Harlow is a witch but not a very powerful one--in part because she hasn't been home to the magical town of Thistle Grove in years. Her self-imposed exile has a lot to do with a complicated family history and a desire to forge her own way in the world, and only the very tiniest bit to do with Gareth Blackmoore, heir to the most powerful magical family in town and casual breaker of hearts and destroyer of dreams. But when a spellcasting tournament that her family serves as arbiters for approaches, it turns out the pull of tradition (or the truly

impressive parental guilt trip that comes with it) is strong enough to bring Emmy back. She's determined to do her familial duty; spend some quality time with her best friend, Linden Thorn; and get back to her real life in Chicago. On her first night home, Emmy runs into Talia Avramov--an all-around badass adept in the darker magical arts--who is fresh off a bad breakup . . . with Gareth Blackmoore. Talia had let herself be charmed, only to discover that Gareth was also seeing Linden--unbeknownst to either of them. And now she and Linden want revenge. Only one question stands: Is Emmy in? But most concerning of all: Why can't she stop thinking about the terrifyingly competent, devastatingly gorgeous, wickedly charming Talia Avramov?
