Muhammad Yunus is that rare thing: a bona fide visionary. His dream is the total eradication of poverty from the world. In 1983, against the advice of banking and government officials, Yunus established Grameen, a bank devoted to providing the poorest of Bangladesh with minuscule loans. Grameen Bank, based on the belief that credit is a basic human right, not the privilege of a fortunate few, now provides over 2.5 billion dollars of micro-loans to more than two million families in rural Bangladesh. Ninety-four percent of Yunus's clients are women, and repayment rates are near 100 percent. Around

the world, micro-lending programs inspired by Grameen are blossoming, with more than three hundred programs established in the United States alone. Banker to the Poor is Muhammad Yunus's memoir of how he decided to change his life in order to help the world's poor. In it he traces the intellectual and spiritual journey that led him to fundamentally rethink the economic relationship between rich and poor, and the challenges he and his colleagues faced in founding Grameen. He also provides wise, hopeful guidance for anyone who would like to join him in "putting homelessness and destitution in a museum so that one day our children will visit it and ask how we could have allowed such a terrible thing to go on for so long." The definitive history of micro-credit direct from the man that conceived of it, Banker to the Poor is necessary and inspirational reading for anyone interested in economics, public policy, philanthropy, social history, and business. Muhammad Yunus was born in Bangladesh and earned his Ph.D. in economics in the United States at Vanderbilt University, where he was deeply influenced by the civil rights movement. He still lives in Bangladesh, and travels widely around the world on behalf of Grameen Bank and the concept of micro-credit.

Women have experienced significant changes in various spheres of their lives during the last decades as Bangladesh made economic progress. Yet women's economic engagement and empowerment are subdued, as they cannot make sufficient choices for themselves. This book provides a comprehensive analysis of the economic developments in gender equality in Bangladesh. Through examining women's participation in the labour force, ownership and control of household assets, use and control of financial assets, and opportunities for entrepreneurship, the authors have made concrete recommendations to overcome challenges that lie ahead for women's economic empowerment. This book is an important contribution to the knowledge on interventions required by the policy makers and broader stakeholders towards narrowing gender gaps. --Fahmida Khatun, PhD, Executive Director, Centre for Policy Dialogue (CPD), Bangladesh The women's story is central to Bangladesh's economic and social transformation. There is an urgent need to deepen researched understanding of the multidimensional pathways of women's economic empowerment and extent of real progress made. Voices to Choices is an important contribution to this story. Surely, the journey of women's economic empowerment remains a long and challenging one. Realizing the full benefits of new opportunities is often hampered by both new and entrenched insecurities. The task is as much one of empowering women's agency as of dismantling barriers. The responsibility is as much women's as society's. --Hossain Zillur Rahman, PhD, Executive Chairman, Power and Participation Research Centre (PPRC) This book provides critical insights and is timely, as it outlines how girls and women in Bangladesh have gained more opportunities in labor force participation, control over household and financial assets, as well as greater prospects for entrepreneurship. The findings will greatly contribute to future policy and planning for government and key stakeholders working to advance women's economic empowerment in the country. --Sabina Faiz Rashid, PhD, Dean and Professor, BRAC James P. Grant School of Public Health BRAC University

From an unpromising start as 'the basket-case' to present day plaudits for its human development achievements, Bangladesh plays an ideological role in the contemporary world order, offering proof that the neo-liberal development model works under the most testing conditions. How were such rapid gains possible in a context of chronically weak governance? The Aid Lab subjects this so-called 'Bangladesh paradox' to close scrutiny, evaluating public policies and their outcomes for poverty and development since Bangladesh's independence in 1971. Countering received wisdom that its gains owe to an early shift to market-oriented economic reform, it argues that a binding political settlement, a social contract to protect against the crises of subsistence and survival, united the elite, the masses, and their aid donors in the wake of the devastating famine of 1974. This laid resilient foundations for human development, fostering a focus on the poorest and most precarious, and in particular on the concerns of women. In chapters examining the environmental, political and socioeconomic crisis of the 1970s, the book shows how the lessons of the famine led to a robustly pro-poor growth and social policy agenda, empowering the Bangladeshi state and its non-governmental organizations to protect and enable its population to thrive in its engagements in the global economy. Now a middle-income country, Bangladesh's role as the world's laboratory for aided development has generated lessons well beyond its borders, and Bangladesh continues to carve a pioneering pathway through the risks of global economic integration and climate change.

This book analyzes the performance of South Asian educational systems and identifies the causes and correlates of student learning outcomes. Drawing on successful initiatives both in the region and elsewhere in the world, it offers an insightful approach to setting priorities for enhancing the quality of school education in South Asia.

This book answers key questions about environment, people and their shared future in deltas. It develops a systematic and holistic approach for policy-orientated analysis for the future of these regions. It does so by focusing on ecosystem services in the world's largest, most populous and most iconic delta region, that of the Ganges-Brahmaputra delta in Bangladesh. The book covers the conceptual basis, research approaches and challenges, while also providing a methodology for integration across multiple disciplines, offering a potential prototype for assessments of deltas worldwide. Ecosystem Services for Well-Being in Deltas analyses changing ecosystem services in deltas; the health and well-being of people reliant on them; the continued central role of agriculture and fishing; and the implications of aquaculture in such environments. The analysis is brought together in an integrated and accessible way to examine the future of the Ganges Brahmaputra delta based on a near decade of research by a team of the world's leading scientists on

deltas and their human and environmental dimensions. This book is essential reading for students and academics within the fields of Environmental Geography, Sustainable Development and Environmental Policy focused on solving the world's most critical challenges of balancing humans with their environments. This book is licensed under a Creative Commons Attribution 4.0 International License.

The publication is a practical and comprehensive manual for policymakers and professionals in the field. The volume presents a menu of social protection interventions and the way to prioritize them.

This book offers insights into the concept that a test can be used to encourage innovation in the classroom.

Eaton ranges over all the important aspects of that community's history, whether political and social, or cultural and religious...This study must rank among the finest contributions to South Asian scholarship to appear for some while.
