If these problems persist it may be necessary to have a mechanic check the wiring to the electric window motors and the performance of the parts. Summary. If you do experience any of the listed problems with your Mazda 6 then it's often worth getting a second opinion before taking on any work yourself, unless you are a good, confident mechanic. Many of the problems we've listed can be solved by yourself, however the most common problem we've listed is the clogging of the DPF.
