(1997) of this text

was a completely rewritten version of the original text Basic Coastal Engineering published in 1978.

This third edition makes several corrections, improvements and additions to the second edition. Basic Coastal Engineering is an introductory

fundamentals that

underline the

practice of coastal

engineering. This

book was written for

a senior or first

material presented in

this text is based on

the author's lecture

notes from a one-

semester course at

Virginia Polytechnic

Institute, Texas A&M

University, and

George Washington

University, and a

senior elective course

at Lehigh University.

The text contains

various analysis

techniques that are
presented and each
chapter (except the
first and last) has a
collection of

problems for the
reader to solve that
further demonstrate
and expand upon the
text material. Chapter
1 briefly describes
