Philosophy of religion - Wikipedia

Philosophy of religion is the philosophical examination of the themes and concepts involved in religious traditions as well as the broader philosophical task of reflecting on matters of religious significance including the nature of religion itself, alternative concepts of God or ultimate reality, and the religious significance of general features of the cosmos (e.g., the laws of nature, the emergence of consciousness) and of historical events (e.g., the 1755 Lisbon Earthquake, the Holocaust).

Philosophy of Religion (Stanford Encyclopedia of Philosophy)

Philosophy of religion, discipline concerned with the philosophical appraisal of human religious attitudes and of the real or imaginary objects of those attitudes, God or the gods. The philosophy of religion is an integral part of philosophy as such and embraces central issues regarding the nature and extent of human knowledge, the ultimate character of reality, and the foundations of morality .

Philosophy of religion | Britannica

Many religious believers would say the same thing when discussing their religious beliefs. Indeed, outside of Western culture, where a sharp division has developed between philosophy and religion as a result of the Enlightenment, it is sometimes hard to tell the difference between the two.

The Intertwining of Philosophy and Religion in the Western ...

Philosophy of Religion is the branch of philosophy that is concerned with the philosophical study of religion, including arguments over the nature and existence of God, religious language, miracles, prayer, the problem of evil, and the relationship between religion and other value-systems such as science and ethics.

The Philosophy of Religions area considers philosophical issues arising from various religious beliefs and practices, and from critical reflection upon them. Faculty: Daniel A. Arnold, Ryan Coyne, Arnold I. Davidson, Sarah Hammerschlag, Kevin Hector, Matthew Kapstein, Jean-Luc Marion, Fran ç oise Meltzer, Brook A. Ziporyn

Philosophy of Religions | The University of Chicago ...

In the 17th century the philosophy of religion was taken in new directions by Ren é Descartes in France and John Locke in England. The significance of Descartes and Locke lay in the fact that they were self-confessedly philosophical innovators. In Descartes ' s rationalism (the view that reason is the chief source of human knowledge), God is displaced from the centre of philosophical thought and becomes the guarantor of the reliability of sense experience.

Philosophy of religion - The Enlightenment | Britannica

The philosophy of religion was neglected in the first half of the twentieth century but it has been reinvigorated over the last fifty years. Scholars in this area have developed new approaches and conceptual tools they have used to re-examine perennial problems with fresh eyes.

Elements in the Philosophy of Religion

Feminist philosophy of religion is important to feminist and nonfeminist philosophy alike for providing a critical understanding of various religious concepts, beliefs, and rituals, as well as of religion as a cultural institution that defines, sanctions, and sometimes challenges gender roles and gender-inflected representations.

Feminist Philosophy of Religion (Stanford Encyclopedia of ...

- Religion is a belief in a supreme power and worship of it as the creator and controller of the universe without reasoning whereas philosophy is a pursuit of wisdom by intellectual search and logical reasoning. • Philosophy of religion questions the very existence of the supreme power.

Difference Between Religion and Philosophy | Compare the ...

Philosophy of Religion. Philosophy of religion is the philosophical study of the meaning and nature of religion. It includes the analyses of religious concepts, beliefs, terms, arguments, and practices of religious adherents. The scope of much of the work done in philosophy of religion has been limited to the various theistic religions.

Philosophy of Religion | Internet Encyclopedia of Philosophy

Philosophy of Religion is rational thought about religious issues and concerns without a presumption of the existence of a deity or reliance on acts of faith. Philosophers examine the nature of religion and religious beliefs. Philosophers in the West have focused on ideas related to the existence and nature of the deity because that idea is ...

What is Philosophy of Religion

PHILOSOPHY OF RELIGION Analytical "philosophy of religion," still in its infancy in the 1960s, has developed markedly since then. Other approaches have certainly continued to play a part in philosophy of religion written in English, even more so in other languages.

Philosophy Of Religion | Encyclopedia.com

This course examines how philosophy and religion have interacted throughout history on fundamental questions of religious belief, including the concepts of God, creation, sin, mercy, and redemption. Invoking the writing of the greatest Greek, Jewish, and Christian thinkers as well as "modern" philosophers such as Hume, Kant, Schlieiermacher, and Nietzsche, this course casts new light on the ...

Philosophy and Religion in the West Prof. Cary-Philosophy ...

Philosophy of religion is the interface between philosophy on the one hand and theology and religious studies on the other. It belongs to theology and religious studies in virtue of its subject matter, and to philosophy in virtue of its method. How we think of the philosophy of religion will then depend on how we think of its mother disciplines.

Introduction to the Philosophy of Religion - bethinking.org

Philosophy vs Religion. Many have come to think that philosophy and religion are the same while some argue that the two are opposite sides of the same coin. However, these two concepts are just in part true. Philosophy and religion are related.

Ph.D. in Philosophy of Religion | Southern Evangelical ...

In religion, and even in religious philosophy, reasoned arguments are ultimately traced back to some basic faith in God, gods, or religious principles which have been discovered in some revelation. A separation between the sacred and the profane is something else lacking in philosophy.

A reader-friendly introduction to the essential concepts, theories, and questions in analytic philosophy of religion Does God exist? If so, what is God's relationship to us? Do we have free will? This is Philosophy of Religion surveys foundational topics in the philosophy of religion using a clear and accessible style. Straightforward and easy to comprehend for those with no prior philosophical background, this engaging introduction familiarizes readers with the vocabulary, methods, and major concepts in the philosophy of religion, and invites them to think through questions which arise in the intersection of philosophy, theology, and religious studies. Part of the popular This is Philosophy series, this book applies the basic investigative methods of philosophy to questions of religion, faith, and morality. Chapters offer a framework for thinking about religion, present arguments for and against the existence of God, discuss religious diversity, consider the intellectual co-existence of faith and reason, and examine different theories about why people are religious. Examples and illustrations taken from popular culture reinforce the subject ' s contemporary relevance, and are complemented by a wealth of online resources for instructors on the This is Philosophy series site that encourage further reading and strengthen student comprehension of key concepts. A dependable introduction to the philosophy of religion, This is Philosophy of Religion is an ideal gateway to the discipline for readers who want to engage with questions about religion and contemplate the philosophical implications of religious belief.

What does belief in God amount to? Can we reasonably believe in God's existence without argument or evidence? Can God's existence be proved? Can we believe in miracles? Is there life after death? In this book, Brian Davies provides a critical examination of some fundamental questions posed by religious belief. Completely rewritten in order to cover the latest developments in the field, the new edition of this highly successful textbook will once again prove the ideal introduction for all students of the philosophy of religion. The book is highly accessible and covers all the key elements of a course in the philosophy of religion. It is designed to complement Brian Davies' Philosophy of Religion: A Guide and Anthology, although the book can also be used as a stand-alone introduction.

In 85 new and updated essays, this comprehensive volume provides an authoritative guide to the philosophy of religion. Includes contributions from established philosophers and rising stars 22 new entries have now been added, and all material from the previous edition has been updated and reorganized Broad coverage spans the areas of world religions, theism, atheism, , the problem of evil, science and religion, and ethics

What is the philosophy of religion? How can we distinguish it from theology on the one hand and the psychology/sociology of religious belief on the other? What does it mean to describe God as "eternal"? And should religious people want there to be good arguments for the existence of God, or is religious belief only authentic in the absence of these good arguments? In this Very Short Introduction Tim Bayne introduces the field of philosophy of religion, and engages with some of the most burning questions that philosophers discuss. Considering how "religion" should be defined, and whether we even need to be able to define it in order to engage in the philosophy of religion, he goes on to discuss whether the existence of God matters. Exploring the problem of evil, Bayne also debates the connection between faith and reason, and the related question of what role reason should play in religious contexts. Shedding light on the relationship between science and religion, Bayne finishes by considering the topics of reincarnation and the afterlife. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

William Rowe is one of the leading thinkers in contemporary philosophy of religion. Although he is best known for his contributions to the problem of evil, he has produced innovative and influential work across a wide array of subjects at the interface between philosophy and religion. He has, for example, written extensively on the existentialist theologian, Paul Tillich, on the challenging problem of divine freedom, and on the traditional arguments in support of the existence of God. His work in these areas is distinguished by its clarity, rigour, originality, and sensitivity towards the claims of his theistic opponents. Indeed, Rowe's work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s. The present collection brings together for the first time Rowe's most significant contributions to the philosophy of religion. This diverse but representative selection of Rowe's writings will provide students, professional scholars as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of Paul Tillich, the problem of evil, divine freedom, arguments for the existence of God, religious experience, life after death, and religious pluralism.

Reading Philosophy of Religion combines a diverse selection of classical and contemporary texts in philosophy of religion with insightful commentaries. Offers a unique presentation through a combination of text and interactive commentary Provides a mix of classic and contemporary texts, including some not anthologized elsewhere Includes writings from thinkers such as Aquinas, Boethius, Hume, Plantinga and Putnam Divided into sections which examine religious language, the existence of God, reason, argument and belief, divine properties, and religious pluralism

The first publication of Beverly Clack and Brian R. Clack ' s exciting and innovative introduction to the philosophy of religion has been of enormous value to students, as well as providing a bold and refreshing alternative to the standard analytic approaches to the subject. This second edition retains the accessibility which made it popular for both teachers and students, while furthering its distinctive argument that emphasises the human dimension of religion. The text has been fully revised and updated. The traditional emphasis on the arguments for the existence of God is reflected in a newly extended and reworked investigation into natural theology. Recent developments in the subject are also reflected in updated chapters, and, in a move that highlights the originality of the authors ' approach, they offer a critical engagement with current world events. An entirely new concluding chapter interrogates the connection between religion and terror, and demonstrates how philosophy of religion might be conducted under the terrible shadow of 9/11. This new edition of The Philosophy of Religion will continue to be essential reading for all students and practitioners of the subject.

Exploring the Philosophy of Religion, 7th Edition, combines the best features of a text and a reader by offering clear analysis coupled with important primary-source readings. Professor David Stewart called upon his 30-plus years of teaching experience to introduce students to the important study of philosophical issues raised by religion. Beginning students often find primary sources alone too difficult so this text offers primary source materials by a variety of significant philosophersincluding a balanced blend of classical and contemporary authorsbut the materials are supported by clearly written introductions, which better prepare students to understand the readings.

This anthology offers a comprehensive historical introduction to the central questions of philosophy of religion. Approximately two-thirds of the selections are from ancient, medieval, and modern sources, helping students to understand and engage the rich traditions of reflection on these timeless questions. The remaining contemporary readings introduce students to the more recent developments in the field. Each of the thematically arranged sections begins with an editor's introduction to clarify the central issues and positions presented in the readings that follow. Topics include: " traditional theistic arguments " religious experience and revelation " fideism " naturalistic approaches to religious belief " the divine attributes " fate, freedom, and foreknowledge " the connection between religion and morality " the problem of evil " death and immortality " religious diversity " faith, reason, and the ethics of belief " science and religion. The text can be used alone or in conjunction with a secondary text in philosophy of religion such as Zagzebski's "Philosophy of Religion: An Historical Introduction" (Wiley-Blackwell, 2007).

This substantial anthology is a comprehensive, authoritative collection of the classical and contemporary readings in the philosophy of religion, providing a survey and analysis of the key issues, figures and concepts. Comprises the most comprehensive and authoritative collection of the classical and contemporary readings in the philosophy of religion. Provides a survey and analysis of the key issues, figures and concepts. Examines religious identity, theism and divine attributes, explanations of religion, and theistic arguments. Includes readings concerned with nontheistic religions, evils and goods, religious values, personal identity, and death.
