There is, however, only so much that a retailer can do to prevent loss and enhance security without spending. Many retailers already appreciate this, reflected by the fact that retailers on average in 2017 spent around the same on non-cyber crime prevention in 12 weeks as they did in the entirety of the previous year (£29 million).

Employee theft amounts to roughly \$36.6 billion retail dollars lost annually, according to a 2008 National Retail Security Survey, and accounts for approximately 42.7 % of all retail losses. Each year organizations spend millions of dollars on theft detection/prevention devices yet still incur losses at the hands of their own employees; begging the question not of how theft occurs, but why. Discussing the concept of the Theft Triangle (opportunity, motivation, and insufficient deterrents), Retail Security and Loss Prevention Solutions investigates motivational factors that contribute to loss and describes philosophies that can change the entire spectrum of employee dishonesty. It cites the revolutionary approach adopted by the New York Subway System, demonstrating that by changing the overall presentation of the business and contending with the factors preceding the crime, the crime itself can be avoided. As the title "Loss Prevention Professional" implies, the intention is to stop the damage before it occurs. To this end, chapters discuss behaviors that precede a loss event, theoretical perspectives and research on employee deviance and motivation, and methods to control employee dishonesty through deterrents as well as ethical infrastructures. Detailing the intricacies of the Loss Prevention Profession and the

myriad skills involved such as accounting, forensics, fraud detection, human behavior analysis, and interview/interrogation skills, the authors give advice on how to select the right individuals for the job and how to build a Loss Prevention department. They employ real life case studies and interviews and discuss the problems and solutions for the future of loss prevention as a whole.

RETAIL SECURITY AND LOSS PREVENTION is an invaluable reference for both retail and security professionals. Using step-by-step plans, this book helps the reader design and implement cost-effective loss control programs. It details an easy-to-follow proven process.

This edited collection provides an original and comprehensive take on retail crime and its prevention, by combining international data and multidisciplinary perspectives from criminologists, economists, geographers, police officers and other experts. Drawing on environmental criminology theory and situational crime prevention, it focusses on crime and safety in retail environments but also the interplay between individuals, products and settings such as stores, commercial streets and shopping malls, as well as the wider context of situational conditions of the supply chain in which crime occurs. Chapters offer state-of-the-art research on retail crime from a range of countries such as Australia, Brazil, Israel, Italy, Sweden, the UK and the USA. This methodological and well-researched study is devoted to both academics and practitioners from a variety of disciplines and backgrounds whose common interest is to prevent retail crime and overall retail loss. The chapters 'Crime in a Scandinavian Shopping Centre' and 'Perceived Safety in a Shopping Centre' are published open access under a CC BY 4.0 license at link.springer.com.

Each year organized groups of professional shoplifters steal or fraudulently obtain billions of dollars in merchandise to resell in an activity known as ORC. These stolen goods can also be sold on online marketplaces, a practice known as "e-fencing." This report assessed ORC and e-fencing. It addresses: (1) types of efforts that select retailers, state and local law enforcement, and federal agencies are undertaking to combat ORC; (2) the extent to which tools or mechanisms exist to facilitate collaboration and info. sharing among these ORC stakeholders; and (3) steps that online marketplaces have taken to combat ORC and e-fencing, and additional actions retailers and law enforcement think may enhance these efforts.
