blev indsat på alle Østfrontens brændpunkter og udmærkede sig ved sin hensynsløse fremfærd overfor fremmede civilie og soldater. Soldaterne var af divisionschefen enten hvervede direkte blandt koncentrationslejren Dachaus vagtmandskab eller unge værnepligtige, der direkte var blevet indkaldt til Waffen-SS og indoktrineret der. In November 2001, as the world still reeled from the attack on the Twin Towers, German historian Sonke Neitzel discovered an extraordinary cache of documents from the Second World War. The documents were the transcripts of German prisoners of war talking among themselves in prisoner of war camps, and secretly recorded by the allies. In these apparently private conversations the soldiers talked freely and openly about their hopes and fears, their concerns and their day-to-day lives. With a banality and ease which to the modern reader can appear shocking, they also talked about the horrors of war -- about rape, death and killing. Sonke Neitzel shared the material with renowned and bestselling psychologist Harald Wezler and they set about trying to make sense of the vast piles of documents, the hours of transcripts. The result is SOLDATEN, a landmark book which will change the way we look at soldiers and war, and is as relevant to our modern conflicts in Iraq and

Afghanistan as it was to the soldiers of the German Army in 1945. Published to huge acclaim and controversy in Germany it was a number one bestseller there and reignited the debate about the banality of evil under the Nazi regime.

Chronicles the life of the Nazi leader, including his childhood and youth, his transformation of the SS from a small bodyguard unit into a powerful organization within the Nazi Party, and how his political maneuvering and rise in power set the tone for the party's goals.

This book demythologises one of the top Waffen-SS units during the Second World War, the Hitlerjugend Division. In addition to bringing together new research in European historiography, it also represents an innovative scientific approach using social psychology. It provides insights into inner psychological mechanisms that facilitated moral disengagement and culminated in the division's unparalleled combat motivation and war crimes. Best known for their alleged fanaticism, Nazi indoctrination and inclination to perpetrate atrocities, Hitlerjugend soldiers are analysed here using perspectives drawn from across sociology, anthropology and psychology.

On a visit to the British National Archive in 2001, Sönke Neitzel made a remarkable discovery: reams of covertly recorded, meticulously transcribed conversations among German POWs during World War II that recently had been declassified. Neitzel would later find another collection of transcriptions, twice as extensive, in the National Archive in Washington, D.C. These discoveries, published in book form for the first time, would provide a unique and profoundly important window into the true mentality of the soldiers in the Wehrmacht, the Luftwaffe, the German navy, and the military in general—almost all of whom had insisted on their own honorable behavior during the war. Collaborating with renowned social psychologist Harald Welzer, Neitzel examines these conversations—and the casual, pitiless brutality omnipresent in them—to create a powerful narrative of wartime experience. In Christus Militans knüpft Gabriella Gelardini an Interpretationen an, die das Markusevangelium im Kontext des jüdisch-römischen Krieges und des Aufstiegs der Flavier interpretieren. Von Interesse sind darin aber nicht nur „ideologische Macht- oder Herrschaftsdiskurse,“ sondern insbesondere auch die militärischen Zusammenhänge und die Kriegssemantik im engeren Sinn. Dies erfolgt eingedenk der großen Bedeutung, die das Militär und der Krieg für die Herstellung und Aufrechterhaltung von Herrschaft in der Antike hatten, besonders bei Dynastiewechseln.

The present volume is the result of an international collaboration of researchers who are excellent within their respective fields: interpretation of texts, studies of rites, archaeology, architecture, history of art, and cultural anthropology. They met for two conferences to discuss the significance of rites of ablution, initiation, and baptism and their interpretation in Late Antiquity, Early Judaism, and Early Christianity. The
