At its heart, the Oscar and BAFTA-nominated film The Two Popes is not about Pope Francis and Pope Benedict XVI. It is about two men, who happen to be religious figures, exploring a number of them...

The Glorious Journey - A reflection book based on The Two ...

The book was simply entitled "The Glorious Journey". I haven't read the book yet, but It wasn't the book that caught my attention. It was the title. Although just a mere 18 years of age, it still doesn't stop me from reflecting back on just how glorious the journey has been.

"The seeming inevitability of cruel fate juxtaposes the triumph of the spirit in this remarkably rich and powerful novel, *Glorious*. Bernice McFadden's fully realized characters are complicated, imperfect beings, but if ever a character were worthy of love and honor, it is her Easter Bartlett. This very American story is fascinating; it is also heartbreaking, thought-provoking, and beautifully written."—Binnie Kirshenbaum, author of *The Scenic Route*

"Riveting. . . I am as impressed by its structural strength as by the searing and expertly imagined scenes." Toni Morrison, on *The Warmest December* *Glorious* is set against the backdrops of the Jim Crow South, the Harlem Renaissance, and the civil rights era. Blending the truth of American history with the fruits of Bernice L. McFadden's rich imagination, this is the story of Easter Venetta Bartlett, a fictional Harlem Renaissance writer whose tumultuous path to success, ruin, and revival offers a candid portrait of the American experience in all its beauty and cruelty. *Glorious* is ultimately an audacious exploration into the nature of self-hatred, love, possession, ego, betrayal, and, finally, redemption. aBernice L. McFadden is the author of six critically acclaimed novels, including the classic *Sugar* and *Nowhere Is a Place*, which was a Washington Post best fiction title for 2006. She is a two-time Hurston/Wright Legacy Award finalist, as well as the recipient of two fiction honors from the Black Caucus of the American Library Association (BCALA). McFadden lives in Brooklyn, New York, where she is working on her next novel.

When he was a young man, Allen Say's grandfather left his home in Japan to explore the world. He began his journey by crossing the Pacific Ocean on a steamship, then wandered the deserts, farmlands, and cities of North America. Allen Say lovingly tells the story of his own family's cross-cultural history in elegant watercolor paintings that earned him a Caldecott Medal in 1994. This twentieth-anniversary edition of the modern classic features read-aloud audio and an introduction by Allen Say.

A study course based on the acclaimed film *The Two Popes* starring Anthony Hopkins and Jonathan Pryce, suitable for studying at any time of year including Advent and Lent. Using clips from the movie, Bible readings, discussion starters, questions, and prayers, readers will be encouraged to explore six themes: Called on a Journey, Listening, Change and Compromise, Mercy and Forgiveness, Loneliness, and Love.

Distant relatives of modern lobsters, horseshoe crabs, and spiders, trilobites swam the planet's prehistoric seas for 300 million years, from the Lower Cambrian to the end of the Permian eras—and they did so very capably. Trilobite fossils have been unearthed on every continent, with more than 20,000 species identified by science. One of the most arresting animals of our pre-dinosaur world, trilobites are also favorites among the fossil collectors of today, their crystalline eyes often the catalyst for a lifetime of paleontological devotion. And there is no collector more devoted—or more venerated—than Riccardo Levi-Setti. With *The Trilobite Book*, a much anticipated follow-up to his classic *Trilobites*, Levi-Setti brings us a glorious and revealing guide to these surreal arthropods of ancient Earth. Featuring specimens from Bohemia to Newfoundland, California to the Tucson Gem and Mineral Show, and Wales to the Anti-Atlas Mountains of Morocco, Levi-Setti's magnificent book reanimates these "butterflies of the seas" in 235 astonishing full-color photographs. All original, Levi-Setti's images serve as the jumping-off point for tales of his global quests in search of these highly sought-after fossils; for discussions of their mineralogical origins, as revealed by their color; and for unraveling the role of the now-extinct trilobites in our planetary history. Sure to enthrall paleontologists with its scientific insights and amateur enthusiasts with its beautiful and informative images, *The Trilobite Book* combines the best of science, technology, aesthetics, and personal adventure. It will inspire new collectors for eras to come.

Provides a top-to-bottom look at the ocean, from birds and waves to thermal vents and ooze.
