The Buenos Aires Institute was located in the town of San Andres de Giles. To mundane eyes, the Institute looked like a large crypt standing in an abandoned cemetery, in a profusion of ghost-pale wildflowers. To Alec's eyes, it looked worse. It was a tall edifice, painted a dull rust color, but one wing of the building was a charred ruin.

A hidden door. A magical staircase. Discover the world of Dron! Aha! Lord Sparr has put Princess Keeah under a magic spell. Eric, Julie, and Neal can help her if they go to the Land of the Lost. But only ghosts live there. And if they don't get out soon, the kids will turn into ghosts themselves!

Ghosts and Demons: The Lost Things is the first step in a comprehensive study of the paranormal. Written as a training manual for new adventurers into the occult, this book takes an often irreverent look at the dogma that surrounds the today's paranormal world. Relying on fresh research from contemporary sources, this book reconstructs the knowledge base that forms the foundation of our modern understanding of the paranormal.

"Intriguing [and] enjoyable." [Ian McGuire, New York Times Book Review Ice Ghosts weaves together the epic story of the lost Franklin Expedition of 1845/whose two ships, HMS Erebus and HMS Terror, and their crew of 129 were lost to the Arctic ice/with the modern tale of the scientists, divers, and local Inuit behind the recent incredible discoveries of the wrecks. Paul Watson, a Pulitzer Prize-winning journalist who was on the icebreaker that led one of the discovery expeditions, tells a fast-paced historical adventure story and reveals how a combination of faith in Inuit knowledge and the latest science yielded a discovery for the ages.

Best-selling author Graham Robb finds that the 2,000-year-old map of Ptolemy unlocks a central mystery of British history. Two years ago, Graham Robb moved to a lonely house on the very edge of England, near the banks of a river that once marked the southern boundary of the legendary Debatable Land. The oldest detectable territorial division in Great Britain, the Debatable Land served as a buffer between Scotland and England. It was once the bloodiest region in the country, fought over by Henry VIII, Elizabeth I, and James V. After most of its population was slaughtered or deported, it became the last part of Great Britain to be brought under the control of the state. Today, it has vanished from the map and its boundaries are matters of myth and generational memories. Under the spell of a powerful curiosity, Robb began a journey/on foot, by bicycle, and into the past/that would uncover lost towns and roads, and unlock more than one discovery of major historical significance. These personal and scholarly adventures reveal a tale that spans Roman, Medieval, and present-day Britain. Rich in detail and epic in scope, The Debatable Land takes us from a time when neither England nor Scotland existed to the present day, when contemporary nationalism and political turmoil threaten to unsettle the cross-border community once more. With his customary charm, wit, and literary grace, Graham Robb proves the Debatable Land to be a crucial, missing piece in the puzzle of British history.

In the late 1800s, Southern evangelicals believed contemporary troubles/everything from poverty to political corruption to violence between African Americans and whites/sprang from the bottles of [demon rum] regularly consumed in the South. Though temperance quickly gained support in the antebellum North, Southerners cast a skeptical eye on the movement, because of its ties with antislavery efforts. Postwar evangelicals quickly realized they had to make temperance appealing to the South by transforming the Yankee moral reform movement into something compatible with southern values and culture. In Liquor in the Land of the Lost Cause: Southern White Evangelicals and the Prohibition Movement, Joe L. Coker examines the tactics and results of temperance reformers between 1880 and 1915. Though their denominations traditionally forbade the preaching of politics from the pulpit, an outgrowth of evangelical fervor led ministers and their congregations to sound the call for prohibition. Determined to save the South from the evils of alcohol, they played on southern cultural attitudes about politics, race, women, and honor to communicate their message. The evangelicals were successful in their approach, negotiating such political obstacles as public disapproval the church's role in politics and vehement opposition to prohibition voiced by Jefferson Davis. The evangelical community successfully convinced the public that cheap liquor in the hands of African American [beasts] and drunkard husbands posed a serious threat to white women. Eventually, the code of honor that depended upon alcohol-centered hospitality and camaraderie was redefined to favor those who lived as Christians and supported the prohibition movement. Liquor in the Land of the Lost Cause is the first comprehensive survey of temperance in the South. By tailoring the prohibition message to the unique context of the American South, southern evangelicals transformed the region into a hotbed of temperance activity, leading the national prohibition movement.
