5 Myths About King Richard III 1. He was an unpopular king The impression we have of Richard as an evil and treacherous man with a murderous ambition... 2. He was a hunchback with a shrivelled arm There are some Tudor references to Richard ' s shoulders being somewhat uneven... 3. He killed the two ...

5 Myths About King Richard III — History Hit

Richard was a catholic and would not recognise the Church of England services. As we have come to expect from this author, the material is well researched, looking at many aspects of the life and times of Richard III, and explaining the nuances of medieval language as it was applied in that time, rather than in retrospect. This book goes a long way to debunking many of the myths around Richard III, and having read this, one can't help wondering what the legacy of the king would have been had ...

The Mythology of Richard III by John Ashdown-Hill ...

Ashdown-Hill ' s book sets out to present the fables and myths that have built up around Richard III from the moment of his death until now. Over the last five hundred years Richard III has been slated as a usurper, a tyrant, a man responsible for the death of his wife (not to mention both of his nephews the famous ' Princes in the Tower ').

The Mythology of Richard III by John Ashdown-Hill

Richard III (1452–85) was the last Yorkist king of England, whose death at the battle of Bosworth in 1485 signified the end of the Wars of the Roses and marked the start of the Tudor age. Many myths persist about the last Plantagenet king, whose remains were discovered beneath a Leicester car park in 2012.

The 6 Biggest Myths About Richard III - HistoryExtra

The myths that have always swirled around Richard III range from when he was born, to where he came from and what he looked like, his claim to the throne and the fate of the Princes in the Tower. Was Richard III, who died aged 32 in the Battle of Bosworth Field, the victim of Tudor propaganda and Shakespeare ' s pen?

The Mythology of Richard III - Boarding

Sir Laurence Olivier as Shakespeare's Richard III Picture REX FEATURES The popular image of Richard comes to us from Shakespeare, largely via Laurence Olivier. Some Tudor accounts describe him as having his left shoulder higher than his right, some say the other way round, many don ' t mention any deformity at all.

Richard III's myths and legends - hunchback -Princes in ...

Well Shakespeare wrote the tetralogy consisting of Henry VI Part 1, Henry VI Part 2, and Henry VI Part 3 and Richard III in the early 1590s, under the reign of Tudor monarch Elizabeth I. Therefore, any criticism of Elizabeth ' s grandfather, Henry Tudor, the man who would defeat Richard at the Battle of Bosworth Field in 1485, would be foolish to say the least.

John Ashdown-Hill, whose research was instrumental in the discovery of Richard III's remains, explores and unravels the web of myths around Richard III.

When was the story of the murder of the ' princes in the Tower ' put out? What bones were found at the Tower of London, and when? Can DNA now reveal the truth?

The Last Days of Richard III contains a new and uniquely detailed exploration of Richard ' s last 150 days. By deliberately avoiding the hindsight knowledge that he will lose the Battle of Bosworth Field, we discover a new Richard: no passive victim, awaiting defeat and death, but a king actively pursuing his own agenda.It also re-examines the aftermath of Bosworth: the treatment of Richard ' s body; his burial; and the construction of his tomb. And there is the fascinating story of why, and how, Richard III ' s family tree was traced until a relative was found, alive and well, in Canada.Now, with the discovery of Richard ' s skeleton at the Greyfriars Priory in Leicester, England, John Ashdown-Hill explains how his book inspired the dig and completes Richard III ' s fascinating story, giving details of how Richard died, and how the DNA link to a living relative of the king allowed the royal body to be identified.

For many, Richard III is an obsession-the Richard III Society has a huge membership, and Shakespeare's Histories have contributed to, if not his popularity, certainly his notoriety. Now, with the discovery of Richard III's bones under a parking lot in Leicester, England, interest in this divisive and enigmatic figure in British history is at an all-time high. It is a compelling story to scholars as well as general readers, who continue to seek out the kind of strong narrative history that David Horspool delivers in this groundbreaking biography of the king. Richard III dispassionately examines the legend as well as the man to uncover both what we know of the life of Richard, and the way that his reputation has been formed and re-formed over centuries. But beyond simply his reputation, there is no dispute that the last Plantagenet is a pivotal figure in English history-his death signaled the end of the War of the Roses, and, arguably, the end of the medieval period in England-and Horspool's biography chronicles this tumultuous time with flair. This narrative-driven and insightful biography lays out a view of Richard that is fair to his historical character and to his background in the medieval world. Above all, it is authoritative in its assessment of a king who came to the throne under extraordinary circumstances.

Edward's secret mistresses, clandestine affairs and the nature of his marriage are revealed in this exciting new work by John Ashdown-Hill, author of The Mythology of Richard III

The conventional view of Richard III's defeat at the Battle of Bosworth Field in 1485 is that it was due to a loss of support for him after his usurpation of the throne. However, David Hipshon argues that the result might very well have been in his favour, had not his support for James Harrington in a long-running family feud with Thomas, Lord Stanley led to the latter betraying him. Bosworth was the last English battle in which the monarch relied on feudal retainers: at Stoke two years later professional mercenaries were the key to Henry VII's victory. The author examines how the power politics of the conflict between the Stanleys and the Harringtons, and Richard's motives in supporting the latter, led to the king's death on the battlefield, the succession of the Tudors to the throne of England, the 'death of chivalry' and the end of the Middle Ages.

This book explores how memories and traces of the reign of Richard III survived a century and more to influence the world and work of William Shakespeare. Although Richard and his era had passed beyond living memory before Shakespeare wrote Richard III, Elizabethan England still abounded with the remains and vestiges of his reign. These traces took the form of inherited memories and household articles, established institutions and popular practices, textsand tombs. Charting the fortunes of these pieces of the past over the course of the sixteenth century, Shakespeare and the Remains of Richard III offers a new approach to the cultural history of the Tudor era,whilst shedding fresh light on the sources and preoccupations of Shakespeare's play.

New edition of the bestselling biography of the controversial king whose bones were discovered in a car park in 2012. Contains NEW material, including an account of the reburial in March 2015.
