By placing his or her hands in precise locations and using controlled movements, your chiropractor works on individual joints to improve mobility and relieve discomfort. Chiropractic adjustment is a procedure in which trained specialists (chiropractors) use their hands or a small instrument to apply a controlled, sudden force to a spinal joint.

Chiropractic adjustment - Mayo Clinic

How to Start a Chiropractor Clinic. Chiropractic clinics are an alternative modality that supplement conventional medicine. Their aim is to improve spinal mobility. This usually also means adjusting various parts of the spine, including the low, middle, and upper back area, as well as the neck. Patients often choose this type of therapy when they are dissatisfied with conventional treatments or want pain relief that conventional medicine does not offer.
