Sorry there was not a place to review the PF15TL so I'll use this one as it is close to this older model. I bought this sub to add more slam to my Definitive Technology Pro-Cinema Pro Tower 400 system. I have always enjoyed this subwoofer. It blends very well with the rest of my Old Pro Tower 400 system and my newer BP2002TL system.

I bought this sub (definitive pf15tl) from a stereo buff friend of mine a few years ago and have been pretty happy with its performance ever since. It has a well built/damped cabinet and a sufficient amplifier to power its hulking 15" driver. The sub absolutely rocks with any kind of music or movie soundtrack you can throw at it.
