Download All; Solve using Distributive Property. Use distributive property to solve the multiplication problems in these printable worksheets for 3rd grade and 4th grade kids.

Multiplication Properties Worksheets

The distributive property of multiplication tells us that $5 \times (2 + 3)$ is the same as $5 \times 2 + 5 \times 3$. We can use this to transform a difficult multiplication (3×27) into the sum of two easy multiplications ($3 \times 20 + 3 \times 7$). In these worksheets, students use the distributive property to multiply 1x2 digit numbers. Free printable math worksheets from K5 Learning.

Distributive property worksheets | K5 Learning

Distributive Property Activities Drawing the Distributive Property. Just as we first teach multiplication visually with pictures, arrays, and area diagrams, we also use visual models to introduce the distributive property. Dividing up the area of a large rectangle into smaller rectangles clearly demonstrates how the distributive property works.
