### Magnetism: A Very Short Introduction: Blundell, Stephen J ...

Deborah: So I grew up in Mexico City in a community that was fairly conservative and discouraged women from pursuing a career in science.I was very much in love with physics and math, and I wanted to discover the laws of the universe and how things worked. My mom told me at a very young age to not tell anybody in school that I liked math and physics because, probably, I would never be able to ...
