Missing The Revolution Darwinism For

Missing the Revolution is an invitation to researchers from these disciplines who, in Barkow's view, have been missing the great evolution-revolution of our time to engage with Darwinian thought, which is now so large a part of the non-sociological study of human nature and society. Barkow asks the reader to put aside the preconceptions and stereotypes social scientists often have of the "biological" and to take into account a powerful paradigm that is far away from those past generations ...

Amazon.com: Missing the Revolution: Darwinism for Social ...

Sociologists and social and cultural anthropologists have largely missed a major intellectual revolution of our time: the application to our own species of the Darwinian framework that has been spectacularly successful in explaining the behaviors and societies of every other species in the natural world.

Missing the Revolution: Darwinism for social scientists ...

In The Adapted Mind, Jerome Barkow, along with Leda Cosmides and John Tooby, set out to redefine evolutionary psychology for the social sciences and to create a new agenda for the next generation of social scientists. While biologically oriented psychologists quickly accepted the work, social...
