Broadcast, Multimedia Broadcast
Multicast Service (MBMS) is a
broadcasting service that can be offered
via existing GSM and UMTS cellular
networks.

computer graphics and multimedia tutorial

COMPUTER-BASED MULTIMEDIA.

Technological advances have changed the hardware and software used for developing multimedia from the traditional analog equipment to computer-based or digital multimedia systems. Computers use 0s and 1s to store and process sounds, still graphics (pictures), and motion video.

Multimedia Systems | Encyclopedia.com

Multimedia technology applies interactive computer elements such as text, pictures, video, graphics, animation and sound into a single form to deliver the message. Multimedia presentations may be viewed by person on stage,
