Osteopathic Research - American Osteopathic Association

A 2012 article in The Journal of the American Osteopathic Association examined research funding at colleges of osteopathic medicine in the United States and concluded that "research activity at colleges of osteopathic medicine continues to advance partly because of investments in research and faculty made by colleges of osteopathic medicine." 12 While this finding may be seen as positive news within the narrow context of osteopathic medicine alone, when viewed within the larger context ...

Research in the Osteopathic Medical Profession: Roadmap to ...

The National Council for Osteopathic Research (NCOR) highlights multiple studies that identify Osteopathy as an efficacious, cost effective treatment modality for low back pain. From this Osteopaths can be considered as being ideally placed to deliver NICE recommended strategies to address the widespread burden of low back pain and both patients and allied healthcare practitioners alike should have increased confidence in Osteopathy following the new NICE guidance.
