With searing wit and incisive commentary, John Kenneth Galbraith redefined America's perception of itself in The New Industrial State, one of his landmark works. The United States is no longer a free-enterprise society, Galbraith argues, but a structured state controlled by the largest companies. Advertising is the means by which these companies manage demand and create consumer "need" where none previously existed.

**The New Industrial State | Princeton University Press**  
The New Industrial State is a great liberal pipe dream in which Galbraith argues that America has become a paradise administered by big business and big government. Galbraith's thesis was that America's large corporations were managing the economy in a highly benevolent fashion.
