Philosophy, insofar as it may be correlated at all to a "way of Life", is a form of thinking meant to guide action or to prescribe a way of life. The philosophic way of life , if there is one, is displayed in a life in which action is held to be best directed when philosophical reflection has provided that direction; e.g., SOCRATES the paradigm ...

This chapter examines the development of and motives for Quine's particular form of mathematical structuralism. It will argue that Quine, unlike many contemporary mathematical structuralists, does not appeal to structuralism as a way of accounting for what the numbers really are in any robust metaphysical sense.

This essay discusses the four main characteristics of the Indian history of reflection on the human condition. Furthermore, certain questions are left open, for there is no known way in which they could be decided one way or the other. Such questions touch every human being intimately. The question of human freedom versus determinism is one such question.
