The Star Cross

The ship Star Cross returns to earth after a severely damaged war ship shows up at Earth's only colony world. What they find is a group of ships in orbit and signs that Earth has sustained a nuclear bombardment. In response Admiral Vickers takes the Star Cross and his small fleet of ships in to a surprise attack.

The Star Cross (Star Cross, #1) by Raymond L. Weil

While Earth is being plundered, the Newton fleet and its flagship, the Star Cross, must trace the threat back to its source, unravel the complexities of an extensive alien civilisation composed of many realms bonded together by trade, and develop enough of a strikeback capacity before humanity's hourglass runs out.

Crux is a constellation centred on four stars in the southern sky in a bright portion of the Milky Way. It is among the most easily distinguished constellations as its hallmark stars each have an apparent visual magnitude brighter than +2.8, even though it is the smallest of all 88 modern constellations. Its name is Latin for cross, and it is dominated by a cross-shaped or kite-like asterism that is commonly known as the Southern Cross. Predominating the constellation is the first-magnitude blue
